

# ELECTION SERIES

Election Series is a UV curable screen printing ink formulated specifically for multiple substrate adhesion performance. Election is the broadest ink system of its type, offering flexibility for pressure sensitive vinyl applications with the unique versatility to adhere to nearly all point of purchase stocks, including fluted polyolefin stocks, without the addition of a catalyst

25334 Election Black  
25311 Election Red  
25312 Election Blue  
25313 Election Yellow  
25314 Election Green

Outstanding  
adhesion to a variety of  
substrates

No additives required  
for Coroplast

Low tack finish for  
easy handling

**GREAT  
PERFORMANCE**

Flexible for multi  
layer applications and  
die-cutting

Durable, non-block  
finish for double-sided  
prints

Rapid cure rates,  
ideal for multi  
color presses

## RECOMMENDED SUBSTRATES

- Pressure Sensitive Vinyl
- Board Stock
- Polystyrene
- Coated and Uncoated Paper
- Rigid Vinyl
- Fluted Polyolefin
- Expanded Foam PVC
- Polyethylene Sheet
- Some Coated Metals

# UNIVERSAL PLUS

The Universal PLUS digital ink system provides a robust color gamut. The ink was formulated to provide optimal adhesion to a wide range of rigid materials, including coroplast, high-impact polystyrene (HIPS) and acrylic. The ink incorporates a unique cure package to enable it to achieve excellent cure under both mercury vapor and LED lamps for multi-pass digital printers. The Universal PLUS ink was designed to improve efficiency and reduce operating and inventory expenses by allowing printers to incorporate a single ink system regardless of UV or LED curing technology.

## RECOMMENDED SUBSTRATES

- Polystyrene (including HIPS)
- Coroplast
- Coated Cardstock
- PVC
- PETG
